Sustainability Report 2024

"Together, We Grow Stronger For The Future"

The Sustainability Report of MWG Group, published on April 3, 2024, highlights key milestones, evaluates strategic implementation, and measures the progress of MWG's sustainability commitments throughout the year. The report also outlines future goals and directions aimed at further advancing **a sustainable and responsible business model, thereby creating long-term positive value for the environment, the community, and all stakeholders.**

Over 3,000 MWG Stores Equipped with IoT Systems

MWG continues to expand its application of IoT to enhance customer experience, automate operations, and optimize energy consumption. The initiative contributes to emission reduction, improves efficiency, lowers electricity costs, and supports environmental protection - aligning with the Group's ESG commitments.

Bach Hoa Xanh Expands the “Green Tick “Responsibility”” Program

The signing ceremonies with suppliers in Lam Dong (April 4) and Long An (April 10) took place under the witness of representatives from the Departments of Industry and Trade, Agriculture, and Environment of the respective provinces and Ho Chi Minh City. These events mark a significant step forward in expanding the food quality control model. Bach Hoa Xanh will continue to closely collaborate with relevant authorities to scale up the “Green Tick ”Responsibility"” program, aiming to build **a healthy and sustainable consumer ecosystem — for the well-being of consumers.**
